**NeverStrip Micron Sealers** are based on patent protected, **21st Century Floor Care Technology**. These sealers are micron-thin and largely inorganic-based. NeverStrip introduced these products to the North American floor care maintenance marketplace during 2013. The sealers are being used on essentially all types of non carpet flooring. Thousands of applications have been completed and are being maintained within a diverse and broad range of residential and commercial facilities.

**The Benefits are:** Attractive Appearance; Long Lasting Performance; Improved Floor Protection; Cost-Effective Refresh-ability, Simple Application and Maintenance; Less Floor Care Labor and Reduced Floor Care Costs.

NeverStrip®
FLOOR COATINGS
21st Century Floor Care Technology™

**The Micron product portfolio provides systems that create solutions across all types of hard surface materials.**

**Ceramic, Porcelain, Quarry Tile and Brick**

- Clean and Seal
- Tile and Grout Restoration with Grout Color Sealer

**Resilient including LVT, VCT, Sheet Vinyl, Rubber and Linoleum**

- Replace wax on VCT
- Clean, Seal and Protect
- Restoration

**Stone, Terrazzo and Concrete**

- Clean and Seal (Stone and Terrazzo)
- Clean, Densify and Seal (Concrete)
- Polish, Seal and Burnish – 175 rpm machine with Diamond Pads (all)
- Grind, Densify, Seal and Burnish – with planetary machine (Concrete)
- Refresh Previously Polished Floors (all)
